Business Hours, 9 A. M. to 3 P. M.  
Saturdays, 9 A. M. to 12 M.

## Saving On A Salary

Working for a salary does not mean that living expenses should consume all your earnings.  
The man who works week after week and spends the money as it comes is throwing away every chance of independence.  
Begin saving today—lay aside a few dollars now and you will have made a start.  
We pay 4 per cent. interest on all savings accounts, and this added to the principal will soon lay the foundation of a competence.

## Not Many Store-Sales Are Uninfluenced by Store-Advertising!

The store-sales to-day that are uninfluenced, directly or indirectly, by store-advertising will not have amounted to ten per cent. of the total business of the day. By the direct influence of advertising is meant the sales of articles specifically advertised. By the indirect influence of advertising is meant the articles sold that are not specifically advertised, but are displayed to the customers who are drawn to the store by THE ADVERTISED ARTICLES. In the latter case, as surely as in the first, the advertising must be credited with the sale.

Observant merchants know that this is true. They should gain courage from the knowledge to strengthen their advertising campaigns to the point of matching their store-hopes and plans.

## Fine Job Printing At This Office

## FELL ON SIDEWALK AND ASKS DAMAGES FOR TRAUMATIC PLEURITIS

Gaetano Tedesco, a laborer, has filed notice through the law firm of Coughlin & Wilder of his intention to bring suit against the city for damages for injuries received by falling on a defective crosswalk at Congress street on the East Side of Main street. The accident occurred on April 29 and the plaintiff claims to have contracted "Traumatic Pleuritis" as a result of the fall.

## NEWEST NOTES OF SCIENCE

An alloy of 70 per cent. of cerium and 30 per cent. of iron has the remarkable property of giving off a shower of sparks when struck by steel.

After a seven year fight, which has cost over \$25,000, the bark beetle, the chief foe of South Dakota timber, has been driven from that State.

A novelty in the line of physical culture apparatus is a motor-driven tread-mill which compels the user to run to keep from being thrown off the machine.

A Government report estimates the number of caged songbirds in this country at not less than 5,000,000, eating feed costing \$7,500,000 each year.

A steamship recently made the 4,240-mile trip from Yokohama to Seattle without being out of wireless communication with one port or the other at any time.

A motor-driven sleigh, developed during the past winter, was propelled by a pair of legs, resembling, in their operation, those of a grasshopper.

A national girls' college, for the training of teachers, has been established at Peking, entrance being by competitive examinations in all the provinces.

The waters of Lake Chapala, between the Mexican States of Jalisco and Michoacan, are to be utilized for an extensive power and irrigation enterprise.

Although Galileo perfected his first telescope some time before, the first recorded mention of it was in a German newspaper published 300 years ago this month.

The Ural mountains, from which almost the entire world's supply of platinum is obtained, produced but 10,731 pounds last year as against 11,833 pounds in 1907.

Through trains between Seattle and Galveston, Texas, have been scheduled, which are promised for this summer will make the longest run of the kind in the United States.

Metals may be electro-plated upon wood by first varnishing the latter and thoroughly covering it with pure copper bronze powder before the varnish thoroughly dries.

A Berlin surgeon claims to have invented a harmless anaesthetic which a soldier may carry in his pocket and administer to himself to ease his suffering when wounded.

The largest cargo of creosote ever brought to this country, 1,250,000 gallons, recently arrived at Philadelphia for the Pennsylvania Railroad to use in preserving ties.

During the past five years, 41,423,000 frozen rabbits have been imported from Victoria, principally to England, in addition to which there have been exported 98,242,000 skins.

Cartridges containing powdered calcium oxide, into which water is admitted to form steam, are used to break down coal in some European mines instead of dynamite or gunpowder.

In winter sports held in northern Sweden in February automobiles were used to tow sleds, the sleds being wrapped with chain to enable them to grip the ice.

## Fairfield County News.

## Estate in Probate.

The will of Mrs. Mary Deguire, wife of Louis Deguire, of Stamford, who died on April 9, has been admitted to probate. It disposes of an estate the estimated value of which is about \$6,000. There are small bequests of money to Ellen Ryan, a niece, and Bridget O'Hara, a sister of the testatrix. Mrs. Deguire bequeaths a house and lot to her husband and another house and lot to her son, Joseph Deguire. The residue of the estate goes to the husband.

The inventory of the estate of the late Julia B. Slate, who was found dead recently in her home at Stamford, has been filed in the Probate Court. The total value is \$25,048.27, of which \$5,000 is in real estate, \$18,788.75 in securities, \$708.25 in furniture, jewelry, etc., and \$462.27 cash.

Car and Garage Burned.  
A fire in Greenwich, Saturday, resulted in the total loss of a large Packard machine owned by J. Clifton Edgards and the garage in which the car was stationed. The fire is believed to have been caused by an explosion in the car. The machine and building were insured.

Will Issue Bonds.  
At a special city meeting in South Norwalk, Monday, it took hardly five minutes to ratify the proposal to issue \$70,000 in bonds, as per the recent bill passed by the Legislature with a referendum clause. Of the new bond issue, \$61,000 is for refunding existing bonds and the balance of \$9,000 will be used on the water filter. The resolution calls for bonds to run thirty years, and to bear four per cent. interest.

Stuck in Mud.  
The body of Martin W. Schotanus, a painter, of South Beach, was discovered lying face downward in the mud off Stamford, Monday. As far as can be ascertained, Schotanus left his home to go fishing, and, as he had done this frequently before, he stayed out till early morning, no anxiety was felt when he did not return. The supposition is that, in moving his skiff from one hole down to another, he accidentally fell overboard and being in a bad spot, could not extricate himself from the mud. Evidence of violence or struggle were all about where the body was found. Ten feet away was solid ground but he could not reach it.

## CREATE OYSTER TAX COMMISSION

Probable Upshot of Warfare of Woodruff and Bivalve Owners.

Hartford, May 13.—The executive session before the shell fish committee regarding the increase of the tax on Connecticut oysters was continued yesterday, following Governor Woodruff's statements, Captain Thomas H. Hamilton of New London, an oyster expert, was before the committee for more than an hour giving suggestions. He is familiar with the oyster trade, not only in this state, but in Rhode Island.

It is learned that the upshot of the deliberations of the shell fish committee on the matter of properly increasing the oyster ground tax may take the form of suggesting to the legislature the appointment of a special commission to place an assessment valuation upon the Connecticut oyster beds in the sound.

This commission, if created, will possibly be composed of the state tax commissioner, the state controller and an expert oyster man, and several legislators.

Its work will occupy a space of at least three months, and its cost will run from \$500 to \$10,000. It is calculated that it will increase the taxable valuation of the oyster grounds of the state measurably, permanently and suitably.

While there is opposition to this move in some quarters, many of the oyster growers are in favor of it, and it is believed that most of them are especially desirous of a fair valuation upon their under water properties.

The idea is that the commission shall visit all of the taxable oyster grounds in the state and make expert examinations with dredges, etc., which shall be conclusive in establishing the value of Connecticut oyster lands.

Count Boni Coming For Big Game

Montreal, May 13.—The Canadian Pacific Railway has received a communication from Count Boni de Castellane, former husband of Anna Gould, asking that arrangements be made for guides, etc., for a hunting trip after big game in the Rocky Mountains the end of July.

DR. EGGINGTON WILL SOON RESUME DUTY

Dr. Eggington of the Emergency hospital staff was out again yesterday and visited the charities building for the first time in two weeks. He will be able to resume his duties there in a few days.

OMAHA ELECTRIC SHOW LIGHTED BY WIRELESS

Omaha, Neb., May 13.—The lighting of the big auditorium by electric impulse from the wireless tower at Fort Omaha, six miles away, was a novelty to which visitors at the show of the Omaha Electrical Exposition were treated last night.

Black Hand Threatens Consul William H. Bishop

New York, May 13.—William H. Bishop, American Consul at Palermo, Sicily, who was threatened with death just after the assassination of Lieut. Joseph Petrosino in the streets of Palermo, is now in this city. He is not telling his abiding place, for it seems desirable on more than one account that members of the Black Hand in New York should not learn of his whereabouts.

Mr. Bishop has received two letters warning him that unless he ceases lending a hand in the search for Lieut. Petrosino's assassins and in the deportation of several of the notorious Italian blackmailers now in this country he will meet the fate which befell his colleagues.

Commissioner Bingham's special agent. From the time the first warning letter was received until he was safely on his way to this country Mr. Bishop was under the constant surveillance of two Italian detectives. They even went on board the Cunard liner Carpathia with the Consul and his wife and remained until the vessel had cleared Palermo.

Gov. Haskell's Attorneys Engage in Fist Fight

Tulsa, Oklahoma, May 13.—Plinky Soper, formerly National Republican Committeeman from the old Indian Territory, and James Huckleberry, attorneys for Gov. Haskell, engaged in a fist fight here yesterday at a local hotel with W. J. Baber, former Chief of Police of Tulsa. Baber had accused Soper, and when the latter declined to reply, Baber struck him. In the fight that followed Huckleberry interfered and received a knife cut. Baber was arrested.

The Federal Grand Jury to reinvestigate the Huckleberry town lot frauds, with which the names of Gov. Haskell and other Oklahomans have been connected has begun taking testimony. Many witnesses are here from other states. Miss Carrie Pace, W. W. Williamson, E. E. Bouldin, J. J. Pritch, L. B. Conway, Thomas H. Averill, Thomas Hamilton and H. L. Bowright, all from Danville, Va., and George C. Cabell of Norfolk, Va., said that they never owned any Muskogee real estate whatever, and if they were ever used as dummies in the scheduling of any of the lots in dispute there must have been a forgery of quitclaim deeds in their cases.

NURSES' LAWN FETE

The annual lawn fete for the benefit of the fund for a nurses' bed in the Bridgeport Hospital will be held at the residence of Mrs. F. W. Wilmot, 508 Stratford avenue, June 30. There will be automobile rides and moonlight sails on the harbor in yachts, the use of which will be donated. The proceeds will be added to the fund for a free bed for nurses, for which \$5,000 is required.
